INDEX TO VOLUME 27
Spring 1975 to Winter 1975–76

ALPHABETICAL INDEX

Title	*Author*	*Issue*	*Pages*
Action line for faults	L. H. Popple	Spring	7-9
Biggest in Britain	————	Winter	28–30
Calling more men on the move	————	Spring	1
Centre of research	C. F. Floyd	Winter	15–18
Computers aid the network planners	I. F. Galpin	Autumn	13–15
Construction engineering development in Japan	J. Brown	Summer	28–30
Consulting with the experts	A. A. Mann	Spring	4–6
A co-operative venture	————	Winter	26–27
Creating an Area of safety	V. G. Bedford	Winter	23–25
The energy savers	R. M. Tyler B. Cartwright	Autumn	8–10
An era ends at Abingdon		Summer	1
An exchange view of Sweden	E. J. Forde	Spring	28–30
Factories give a good account of themselves	A. C. Newbold	Summer	23–24
Farewell, two outposts of research	R. R. Walker	Summer	21–22
Formula for efficiency	T. W. Baker	Winter	29
Gateway for international telegrams	R. A. Jackson	Autumn	2–4
Good connections at the national showplace	S. S. P. Marklew	Winter	20–22
Grounds for testing at Smallford	I. J. Jenkins	Autumn	24–26
Helping customers to help themselves	F. Lawson	Spring	20–21
Helping to develop electronic chips	R. E. Hines	Summer	8–10
Helping to plan main network growth	K. Waterhouse	Autumn	11–12
How attachments are formed	J. Hutchins	Spring	22–24
The inter-city document service by phone	J. E. Briglin	Spring	2–3
In the space of ten years ...	————	Summer	16–17
Launching into a new era	————	Spring	16–17
Making the right move	C. F. Floyd	Winter	18–19
Martlesham – a key to the future	————	Autumn	1
A milestone and an offer	————	Spring	1
Modern home for the quality analysts	R. J. Feasey	Summer	11–13
Modernising the Highlands and Islands	F. Howe	Winter	12–14
Modern machines sweep away old brooms	L. H. Child	Autumn	5–7
Modern workshops keep the wheels turning	S.R.Barrett-Jolley	Spring	13–15
New approach to inside information	R. R. Ralph	Summer	14–15
Niton's day! New coast station is opened	————	Autumn	15
North Central have it taped	D. T. Sloman	Autumn	23
Now it can be TOLD	L. V. Reinger	Winter	17–19
PARIS in the summer	R. V. Franks	Winter	19–21
Providing new lines of information	D. H. Cremer R. G. Carter	Autumn	19–20
Quarter of a million VIPs	R. J. Carbery	Spring	18–19
Screened information – at the touch of a button	S. Fedida	Winter	4–6
Sound way to clean equipment	S. J. Fletcher A. Jarvis	Winter	2–3
Space for a new earth station	P. S. J. Duffy	Spring	10–12
Speeding vital links	————	Winter	1
Standards set the service	J. A. Povey	Spring	25–27
Technician appraisement takes a new form	P. M. Newey	Autumn	27–28
Ten years in the Tower	D. T. Horn	Autumn	16–18
Two into one will go	R. E. Chapman W. J. Hubbard	Summer	2–4
Two-tier operation for British Gas	J. B. Marsden	Autumn	30–33
Value of analysis	C. M. Halliday	Summer	31–33
When the oil men came to town	A. Cameron	Summer	18–20, 33
Wideband network improves ICL's connections	R. M. Streatfield J. B. Waites	Summer	5–7
Working from home – a long range view	J. Glover	Summer	25–27
